

## Symptom Screening Checklist

Anyone showing signs or symptoms of COVID-19 or who may have been exposed to COVID-19 should not be at school.

**1. Has the individual you are dropping off been diagnosed with COVID-19 since they were last at school?**

- No → If No, move on to Question 2
- Yes → If Yes, the child and anyone that lives with them should not be at school

**2. Do any of the children you are dropping off have any of the following symptoms?**

- Fever of 100 or above**
- New or persistent cough**
- Shortness of breath or difficulty breathing**
- New loss of taste or smell**
- Chills** **\*Household members of those with the bolded symptoms should not be in school.**
- Nausea/vomiting
- Diarrhea
- Sore throat
- New onset of severe headache
- Congestion or runny nose
- Muscle aches

**3. Has the individual you are dropping off had close contact (been within 6 feet of someone diagnosed with COVID-19 for a cumulative total of 15 minutes over a 24-hour period) in the last 14 day or been advised by health department or health care provider to quarantine?**

- Yes → The child should not be at school. The child can return 14 days after the last time they had close contact with someone with COVID-19.
- No

**The student may go to school when they can answer “No” to all three questions.**
